Reacting Behaviours

Supporting

When you say you agree with someone or like their idea

That's a good idea!
Yes, I agree with you!
I like what you say.

Disagreeing

When you say you don't agree with what someone is saying

I disagree with what you say.
I don't think that's right.
I don't think that will work.

Clarifying Behaviours

Summarising

Bringing together what has been said in a shorter way

So if we put all the ideas together, what we have said is…

Testing Understanding

Checking you've understood and that others understand you

Do you mean that…
Can I check you've told us that…

Giving Information

Telling people things

The facts are…
The information I have is…
What we know is…

Seeking Information

Asking questions and trying to find things out

Do you think that…?
Can you tell me a bit more about that?
Why do you think that?
